

Certificate of Efficiency for the American Recovery and Reinvestment Tax Act of 2009

Section 25C of the Internal Revenue Code

The thermal efficiency of your Lopi™ has been determined to be greater than 75% and qualifies for tax credits as authorized for biomass-burning home heating stoves by the Economic Recovery and Reinvestment Act of 2009. To ensure the Lopi's™ efficiency complies with the guidance published by the U.S. Internal Revenue Service (IRS) on June 1, 2009, Travis Industries, Inc. had the data, calculations, and results reviewed by either OMNI-Test Laboratories, Inc. of Portland, Oregon or Myren Consulting of Colville, Washington. Homeowners should consult their tax advisor to determine whether they qualify for any potential income tax credits.
